Intel Recovered: 'Zweenie'

A recent delivery from one of our off-world contractors has recovered written material by a POI and is provided for your attention:

Laser. Geier Hochenergie-Laser Karabiner Zwei. 'Zweenie'

Solo Nobreans have a deep distrust of outsiders that goes way beyond being isolated for years from other planets. Beyond even their mistreatment at the hands of their original colonial overlords. How about getting ripped off by the most famous Spacer arms company as a very cruel and expensive joke?

The Geier Hochenergie-Laser Karabiner Zwei is known almost exclusively by the name given by fresh Nobrean conscripts that shoulder it: the Zweenie.

"Ergonomically suspect" is the nicest thing you could say about the laser rifle. Lousy sights, criminally underpowered, prone to overheating and ruptured battery cases—that one's on the NEP though; they kept cycling the batteries for almost double the manufacturer recommended life span.

Anyway, the War Council wanted in on some "real spacer tech" and Geier obliged them, snickering all the way to the bank, I'm sure. They only bought one shipment of Zweenies because of the per-unit price, but it was a big shipment. Nothing spells poor customer service like shopping as an isolationist dictatorship.

The sad part is that during the Long Night you still saw plenty of brave souls go after Brigadors with nothing but a Zweenie in hand. I know, I was one of those Brigadors, but it still makes my stomach drop to think about it.

Said figure did not claim their remuneration following the Concern's reacquisition of Solo Nobre and thus this file remains open until their whereabouts can be confirmed.

Seeking Volunteers for PAX East 2020

Stellar Jockeys will be exhibiting at PAX East 2020 in Boston, MA, from **Thursday February 27th to Sunday March 1st**. If you live in the immediate area, are free on any of those dates, and would like to volunteer at our booth, please write to team@stellarjockeys.com, or pop into [our Discord](#) and send a DM to Benjamin.

In return for helping us run our booth for a few hours, we'll have some spare passes for the day(s) you're volunteering, along with some merch, food that isn't convention hall pizza, and like before we'll be having a community meetup somewhere at the sidelines of PAX East (probably on the Friday or Saturday night).

Community Survey 2019

Last year we ran a brief survey on our community. Since then, the community has grown about three times in size on the Discord alone, so we're doing another.

By taking a couple of minutes of your day to fill this out, you will give us a much better understanding of who we are talking to. As usual, there are

plenty of boxes if you're feeling creative.

Also like before, at the end you can opt to leave your email address, which will be entered into a raffle where the winner will win something from our merchandise store. **You will only be emailed if you win.** The survey will remain open until mid January 2020.

Community Spotlight

Incredibly, **Briggs** has been indefatigable with their creativity, this time focusing on the Coffin. Check out [more amazing images here](#).

Meanwhile, **Zi** frequently takes art requests on their streams and so Commander requested a bishounen Antero Gian emerging from Spacer control gel.

You can see all these and more in the #becks_best channel on our Discord server.
