

## STELLAR JOCKEYS JULY NEWSLETTER

Welcome to your monthly Stellar Jockeys newsletter for July 2022. Our most recent test build was just finished, and an important news post is up on Steam regarding Brigador Killers.

Benjamin, Stellar Jockeys

### Monthly Dev Posts to Steam Start Now

We've just wrapped up on the internal BKTEST04 dev build this month, which is slowly but surely expanding the scope of what we think can do with Brigador Killers. In addition, starting this month, updates on BK's progress are still going to be delivered to our newsletter regulars on a monthly basis, but we're also going to be posting a much longer version to Steam at the same time. The main reason for this is two-fold:

- We want to start talking more openly about our progress to a wider audience
- Steam affords us *much* more space than a newsletter

So for July's inaugural Steam post we've written about where we're at with BK, what sort of expectations we wish to set and have answered some of the user questions we put out a call for last month - plus a bunch of screenshots. We hope you enjoy it.

## Here's Another Gamedev Stream

Hugh did some bugtesting live on Twitch recently as well as explain the pitch for BK's overall gameplay in this latest VOD. If you wish to watch these live, the best way to catch them is to sign up for the Dev Stream role in our Discord server by entering `~joindevstream` as its own message in chat. Regardless, all streams will be archived on their respective channels on Twitch, and devstreams of note will also be cross posted to our YouTube so we can add things like timestamps.

## New Zealand Now Available For Shipping

As of July 20, 2022, we are able to ship physical merchandise again to New Zealand. Thank you for your patience.

## Community Spotlight

A quiet month for once. 50Doller returns with a couple more illustrations in the style of military rag covers. One for spacers...

...and one for loyalists. Click for big versions of both.

If you've only just recently signed up to our newsletter, the #becks\_best channel on our Discord server contains a wealth of fan-made content going all the way back to 2018.

## Next Month

It's the summer so there won't be much in the way of "new" stuff, but for the next Steam post we'll do a more detailed retrospective of the BKTEST builds at the end of August.
