Brigador Killers: The Impound Update

Live on Steam, GOG and Itch is **The Impound Update** for Brigador Killers. This is the first content update for Brigador Killers since release that adds two new Brigador kill missions to the game along with other challenges, while at the same time lowering the requirements to access most of the content. The full details of the update can be read in the news announcement below.

BK OST - Refugee Camp

September's Makeup and Vanity Set track from Brigador Killers is "Refugee Camp", which is heard in the now-retired Angel Base hub. This song is *not* in the official soundtrack; the various ambients not present in the OST may end up in a separate album at a later time.

Community Spotlight

Stellar Jockeys have been very busy since the August release and we've neglected to post some new additions to #becks_best in the discord. Server newcomer **hrofnung1994** did a cinderblock doodle...

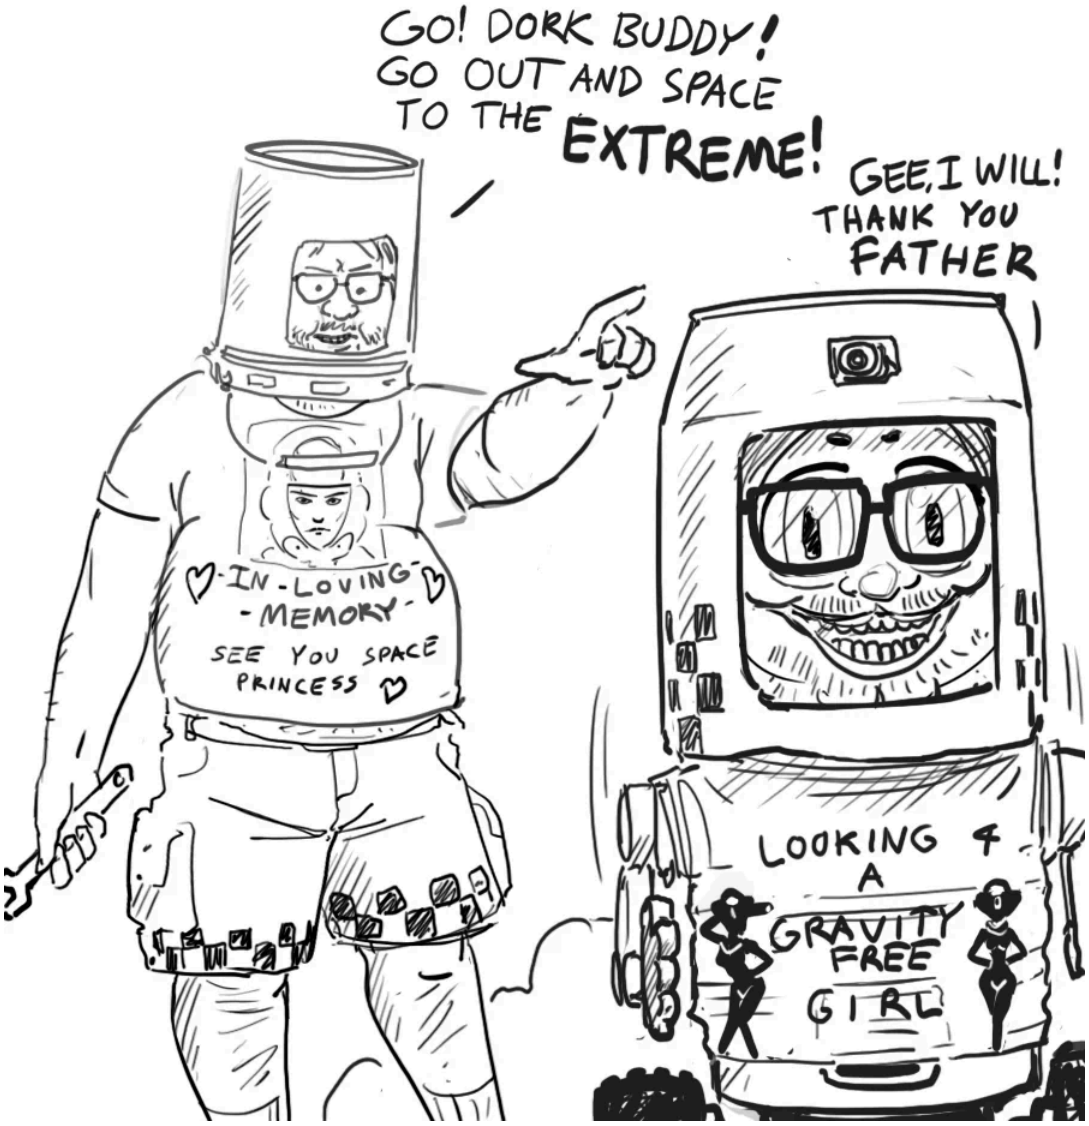

...and then imagined a hijacked Juke.

Long time member **Lowkek** did a paintover of the two main characters from the new HBO show "Lanterns" as Cavalier and Exit...

While **Flyingdebris** treated us to "Dork Buddy", complete with a lore entry.

> *Having managed to secure an offworld passage from Solo Nobre, Octovarious was sadly unable to enjoy a permanent reunion with his space brothers. His spacer transit operators informed him that his vibrations were "far too weighed down by gravity" and that he needed to "train more" on Mar Nosso before he would be ready to join the exalted voidborne clades and earn his blue spandex, and that they would "totally 100% come back for him when the time was right." Giving him a kick squarely in his back as he walked down the ramp, and throwing his half open luggage onto the ground next to him, before immediately blasting off (a respectful spacer way of saying farewell) Octovarious was now at the Mar Nosso Spaceport, the world, was his oyster.*

Several more entries like these can be seen over in the discord server channel which has over eight years worth of posts.

Next Month

As mentioned in the news post, work continues on Brigador Killers and there's still plenty left to do before it can leave Early Access. We're looking forward to the reception to The Impound Update.
